### Step 2: Farm and Grower Confirmation

The farms or entities that you have responsibility for need to be listed under My Farms so that the technology license agreements can be associated with them.

The system may display farms in the database that match your registration information.

You should select [Is your farm](#) or [Is not your farm](#).

If all of your farms are not listed, then manually add them by clicking [+Add a Farm](#).

You may also add Absentee Landowners associated with each farm (i.e. partners, landlords, farm management services).

When done, click [Continue to Final Step](#).

### Step 3: Supplier Identification

In this step, select **Tri Ag Products** from the provided list. By selecting Tri Ag Products, you allow AgCelerate to communicate your Technology Use Agreement status to these retailers.

When done, click Complete Registration.
